InvestGlass Deploys its Private Banking Artificial Intelligence Platform from Safe Host

Case Study

Artificial Intelligence

Safe Host Services
Secured Private Cloud
Access to Finance Ecosystem

Safe Host's private cloud platform provides the perfect solution for InvestGlass' wealth management application. As a cutting-edge Swiss based start up with global ambitions, InvestGlass needed a scalable and secure hosting solution.

Solution
- o   Scalable IT resources.
- o   Effective network security.
- o   Connectivity to the Safe Host banking ecosystem.

Benefits
- o   Rapid AI platform deployment.
- o   Secured and confidential data protection.
- o   Low latency connectivity to users.

"Safe Host's delivery and support have been impeccable. As our systems work in real time, the reliability of service delivery is crucial. Safe Host's private cloud services lets us focus on our core application safe in the knowledge that our systems will always be available and supported 24/7" Alexandre Gaillard, CEO InvestGlass.

Bringing Big Bank Advisory to Middle Tier Wealth Managers

InvestGlass is a web based financial information platform developed in Switzerland providing out-of-the-box private banking and wealth capabilities.

The platform is fully customizable helping wealth advisors meet their clients' needs while implementing complex compliance requirements.

Safe Host Private Cloud: Reliable, Agile & Secure

By leveraging Safe Host's private cloud service hosted at its Geneva data centre, InvestGlass benefits from a private cloud environment that is agile and secure. "As we face the prospect of undergoing numerous customer audits we are secure in the knowledge that Safe Host's methodology and delivery systems will give us satisfactory results each time". Sébastien Thévenaz, CTO, InvestGlass.

"Safe Host's reliability and the ability to connect to its finance ecosystem is having a huge positive impact on our business."

Alexandre Gaillard, CEO, InvestGlass

Bank Level Security & 24/7 Support

When dealing with wealth managers, InvestGlass needed to show that the hosted systems were not only in Switzerland but protected by bank level security. Safe Host's Geneva data centre is considered one of the most secured facilities in the country, backed-up by the fact that some of the worlds' leading financial institutions rely on Safe Host to protect their sensitive data.

With the InvestGlass application available as a SaaS model to international wealth managers it was critical that Safe Host's support was available at any time and in any time zone. The systems are monitored at all times by qualified network and systems engineers with the ability to troubleshoot any problems before they impact the InvestGlass service.

About InvestGlass

InvestGlass began with a simple idea : every investor should receive an individualised information at the right time and format. Why ? Because, each investor is unique, their attention is precious, engaging individuals is expensive.

InvestGlass SA is a Swiss incorporated company based in Geneva, Switzerland and the code is developed in Switzerland. Portal is designed in Switzerland and hosted in Swiss bank level security servers. Markets feeds are provided by most famous professional providers.

InvestGlass covers financial data and continuous quotes on equities, bonds, foreign exchange, ETF, futures, commodities, mutual funds, hedge funds and much more. Together, we are re-inventing the financial information platform to bring each user the best way to invest because each investor is unique.
